Sprint 2 Report
YT Comments Reborn
The Revivers
8 May, 2023

Actions to stop doing:
- The team is satisfied with our current progress as the team is meeting 3 times a week and working effectively to complete goals outlined in the Sprint Plan. We keep track of meeting progress, and help each other out when people have questions.

Actions to start doing:
- Start researching google authentication for chrome extensions and how to use authentication tokens on the backend.
- Start documenting progress more.

Actions to keep doing:
- Showing up on time for meetings.
- Maintaining great communication during meetings.
- Work collaboratively and answer questions.
- Actively communicating between the frontend and backend team.
- Continuously implementing and testing MVP features for the frontend.

Work Completed/Not completed:

- User Story #2.1: As a Youtuber I want my viewers to be able to give me feedback even in the case my comments are disabled (Completed)
    - Link the frontend overlay to the backend to store comments
- User Story #2.2 As a commenter I want to be able to be identified by my username (Not Completed)
    - There is a way to map unique user-ids to display names
    - Still need to implement Google Sign-In to grab usernames from Google accounts
- User Story #2.3 As a commenter I want to be able to reply to others (Not Completed)
    - The reply endpoint and schema are setup in the backend
    - Replies appear as regular comments and not as subcomments to a comment
    - Still need to implement the reply feature in the frontend

Work Completion Rate:

50% completion Rate
~15 ideal work hours
~5 days during Sprint 2
